

THE LANDSCAPE OF DREAMS

what kind
of dream
is this?

All dreams come in service to our healing and wholeness.

“The ego can never
integrate the Self
but can only bow
before it and try to
relate to it in the
right way.”

COMPENSATORY DREAMS

I am in my house and there is a large fish tank. The fish are blue gills, like the ones we caught when I was a child. The sunlight is pouring through the tank and to me it seems very beautiful. I do, however, notice tiny bubbles all over the sides of the tank and the fish. A voice tells me that the water is too sweet. I put a finger in and taste the water, and it is indeed very sweet.
